

VHP7104GSI - 1150 kW, 60Hz, 480 V, 3 PH

- **VHP7104GSI -1150 kW, 60Hz, 1200 RPM, 480 V, 3Ph = 1050 KW, 50 Hz, 1000 RPM, 400 V, 3**
- **Cross current compensation**
- **Digital voltage regulator with integral VAR for paralleling with utility**
- **Generator bearing and winding temperature detector RTD**
- **Oil level regulator**
- **Quick fill valve and piping**
- **Sensor Main bearings thermocouples**
- **Engine vibration sensor with 4-20 mA output**
- **Low Lube Oil Level Warning switch**
- **High & Low Level shutdown Switch**
- **Battery charger 230V AC**
- **Exhaust harness 15 mt**
- **Main bearing harness 15 mt**
- **ESM harness 15 mt**
- **Exhaust thermocouples (K type, 14 points)**
- **Exhaust Silencer - 1200 rpm. One 12" (356 mm)**
- **Start/Control Batteries 24 V DC System without electrolyte**
- **Removal of unit mounted radiator for shipping**
- **Skid base to have removable wings to allow unit to be shipped in ISO container**
- **Battery Box**
- **Vibration Isolators**
